MESSAGE

I am glad to know that journalist members of various media organisations of the country are going to organise "Indian Media Congress & National Plenary" on 24th December, 2023 at Press Club of India, New Delhi. A souvenir is also being brought out in commemoration.

The Media is the fourth pillar in the conception of the state, and thus an integral component of democracy. A functional and healthy democracy must encourage the development of media as an institution that act as a watchdog of democracy. The media informs citizens about political, social, economic issues, policies and events, allowing them to make informed decision about their leaders and Government. Media bias can distort the information that is presented to the public.

The real character of the media is manifested during the times when democracy and democratic institutions are subverted for political purposes. With a responsible and watchful media, this can result in a polarised public opinion and a lack of trust in the media. I hope the Indian Media Congress and National Plenary will rise to the occasion and deliberate on issues concerning Media and media people are facing today in order to make Indian media free and fair.

I convey my best wishes to all journalists and wish the Media Congress all success.

An Appeal

Indian Media Congress is a national level platform to bring together all the media persons under one roof, this is managed by a Registered Body in the name of “Indian Media Congress Welfare Trust” to avoid confusions and litigations like other media organizations are facing now in all over India.

The inaugural Session of INDIAN MEDIA CONGRESS is planned since 3rd August 2023 and officially documentation work formalities were completed in 13/10/2023. The Inaugural Ceremony of INDIAN MEDIA CONGRESS is scheduled on 23rd December at Constitution Club, 24th December at Press Club of India, and a general logo campaign at Vijaya Chowk on 25th December 2023 at New Delhi.

According to IMC media planning “ADOPTION OF MEDIA LOGO CAMPAIGN” to be launched at Inaugural Function, with a seminar Topic named MEDIA & DEMOCRACY. Many dignitary Guests and VIPs, Eminent personalities have given their consent to join in the National Convention.

Hope the output of the National Convention and the bigger media assembly shall lead further, to memorize it as a movement of media.

(Sanjay Kumar Das)

I am glad to know that INDIAN MEDIA CONGRESS is going to celebrate for Launching of Adoption of Indian Journalist Logo Campaign in New Delhi at All India Level.

It is a bold step for journalists to get a logo, which was not initiated by any one in any where, so far my knowledge is concerned. For that I have taken a concept of a logo representing the whole community and visualised it. The logo speaks itself, about print media, electronic media & digital media. In that I have reflected a pen, boom, and computer key board to convey all sections of media.

I hope you all will appreciate it to carry your self to mark a exclusive identification.

My feelings

Its a grand opportunity for me to express my inner feelings before the media community. Since my 40 years experiences in the Newspaper industry, I learnt many untold contents, many unfold expressions, understood the media industry, the people, the media organizations, the behaviour and the activities. The most important thing is that whenever I sound for the welfare activities for the journalists, somewhere and some places we could not find ourselves united to raise our voice unitedly.

But , during the recent years, my active involvement in Organization of united working journalists we have taken some initiations to provide the possible supports to the needy journalists. Through our union efforts, we distributed 100 Subidha Health Cards to the journalists for the health benefits of their family members including their old aged parents. This Gramin Sambadika Kalyan Yojana was lunched on 2nd October 2023 with collaboration with Hi-Tech Medical College & Hospital, Odisha. We have targeted to include 10,000 journalist members throughout the state..It has not ended here to a limit, rather it encouraged us to Launch a Journalist Logo on National level. For the first time Indian Media Congress Inaugural ceremony to be celebrated in New Delhi. About 200 journalist members will participate to mark the occasion. Hope this will guide the communities to stand on a platform.....

(Hrushikesh Mohanty)

A media Planner.

Friends,

I am happy to visualise a beautiful frame of Media people, united on a national platform of Inaugural Ceremony of Indian Media Congress at New Delhi. It has given a perfect shape of the long awaiting imaginations of media people to a complete desired frame. The 90 days journey effects shall create a big impact in the media history. Some may appreciate, some may analyse in the negative factors of the winning story. But still we are marching in a right path , right spirit and the IMC unit crossed the local hurdles, backside protests, leg pulling process, which made us stronger and encouraged other media people to join with the race and supported the logo, appreciated the logo, signed in the logo signing campaign sheets.. Now we are very nearer to the point of final target.

We believe that people are always believe with good work.
